AL-HAQBANI EST

We think •

We plan •

We Design •

We Build •

Ensuring the design process is managed effectively is the most crucial aspect of creating a successful outcome for any project. Al-Haqbani Est ensures the requirements of all the stakeholders are realized through the design process while creating an efficient and functional design.

The build phase is the culmination of the think and design processes, physically realizing the vision behind the project while delivering the wishes of all the stakeholders. Al-Haqbani approaches the build phase of all our projects with an unyielding desire to create exceptional quality.

"Al-Haqbani Est are committed to providing superior strategic planning services to the major projects and public development industries. Our team of experts and extensive network of specialized professionals and partners ensure that we deliver the best solutions for planning, managing, and executing successful large-scale projects and long-term development plans."

Al-Haqbani believes in carefully and methodically thinking about every aspect of a project. Taking the time to think about the individual requirements and dynamics of each element of a project ensures that Al-Haqbani can focus on surpassing the goals of our clients.

About Us

Al-Haqbani Est's creates, connects and cares for communities

Abdullah M. Al-Haqbani Est (AHE) was founded in 1998 with a focus on construction, rental, and supply services. During the past 23 years, the company has become a leading civil contracting, rental, and supply firm in the Kingdom of Saudi Arabia.

Abdullah M. Al-Haqbani Est (AHE) attributes its success and steady growth to its experience in providing quality workmanship, executing projects in a timely manner, and fulfilling customer needs and satisfaction.

Abdullah M. Al-Haqbani Est (AHE) is currently employed more than 120 people. We carry out various construction, maintenance, rental, and supply works.

We build and maintain the roads, ports, airports, bridges, parks and property developments which make up connected, functioning towns and cities in KSA.

We construct and maintain the vast networks of pipes and drains below ground which supply potable water, energy and fuel and manage waste, keeping communities healthy and livable.

We've been making our mark for more than 23 years. While times and technology have changed, what will never change is the way we work.

"Our management established our business with a strong foundation of honesty, trust, respect, safety, and teamwork. These values have been fundamental to our success and reputation at Al-Haqbani Est. We strive to always follow through on our commitments and do what we say we will do."

Our unique approach and culture have always been our distinguishing factors, and we take pride in applying them every time we work towards building a stronger community. Our customers have consistently appreciated our efforts, which motivates us to keep striving for excellence.

I thank Allah Almighty for entrusting me with this privilege.

Greetings, I'm Abdullah M Al Haqbani, and I'm retired employee of Saudi Aramco with over 30 years of experience in production in the southern region. I have also worked on Aramco projects outside of the Kingdom, which has provided me with an extensive understanding of the companies and a comprehensive understanding of Aramco's health and safety processes.

We, welcomes to Abdullah Al-Haqbani Est, which was established in 1998 in the Kingdom of Saudi Arabia with a clear goal to provide exceptional service to all clients. The company's employees are highly motivated to excel in their roles and function as a people-oriented company. We proudly offer a range of services, including General Trading, Construction Engineering, and Steel Fabrication, which includes precision machining, construction, and project management. Our team's commitment to excellence and attention to detail ensures that we always deliver high-quality results that exceed our clients' expectations.

It is with great pride that we acknowledge our extensive service record of numerous clients in the Kingdom since our establishment. We have provided our clients with exceptional service through our construction, rental, and supply divisions, tailoring our solutions to meet their unique needs and requirements. Our unwavering commitment to excellence has been the cornerstone of our success, and we continue to strive for excellence in all our endeavors.

As the management, we prioritize the execution of all projects according to our client's expectations and specifications. Our goal is to maintain high-quality standards to remain competitive in the market and achieve success. We are committed to ensuring the safety of our employees and the environment, and we place great importance on maintaining our HSE management system. We are dedicated to meeting our clients' quality standards for all their construction and contracting needs and hope to establish a mutually beneficial business relationship. We look forward to working with your esteemed organization and being a part of your success.

Alone we can do so little; together we can do so much.

Abdullah M. Al-Haqbani
CMD, Al-Haqbani Est...

Who we are

Building communities for 23 years

Al-Haqbani Est's has more than 23 years of experience in the transport, water, Construction and infrastructure sector in Kingdom of Saudi Arabia.

We build communities from the ground up, starting with our own network quarries. The names you see on our trucks, hard hats, and high-visibility vests represent more than just a brand. They are the names of our founders and management team, who partnered up in 1998 to establish a contracting business and create a bright future for their families. These families, along with our employees, still hold a significant stake in our public, non-listed company. We take pride in being a family company that cares about our communities and the people within them. Our customers, suppliers, and over 120 staff members are of utmost importance to us. We prioritize safety above all else and make sure to train our employees to take care of themselves and their colleagues.

Our headquarters is located in Abqaiq, where we are dedicated to helping rebuild the city. We approach each task with pride, skill, and an unwavering commitment to safety and quality.

How we work

Independence Integrity

Integration

Al-Haqbani Est is well-known for its independence. We take pride in our private ownership, which allows us the flexibility to work with any partner. Our collaborative approach, combined with a genuine desire to get things done, helps our customers and partners achieve the desired results every time.

We provide clients with a vertically integrated business structure for construction projects, ensuring continuity and timely completion within budget.

Our team is the people want on their side. We have been recognized for our cutting-edge approach to collaboration. With offices and facilities spanning the length and breadth of KSA, we have a powerful and widespread presence across the country.

Our safety approach is non-negotiable - no compromises, ever. We take safety seriously and will not proceed with anything if it can't be done safely. **Al-Haqbani General Contracting C.O.**

Our exceptional project and risk management regimes enable us to confidently tackle any challenges and complexities. We prioritize our projects and relationships above all else and are renowned for swiftly and expertly resolving any issues that may arise, with full confidence in our abilities. Our unwavering commitment to quality has earned us numerous accolades. We take a collaborative approach in working with our customers to determine their quality goals and we leave no stone Unturned in meeting them.

How we do it

Excellence in engineering and construction

In our company, we prioritize delivering work of the utmost quality. We achieve this through our use of pioneering engineering and construction techniques, which allow us to create innovative solutions for our clients. Our multi-disciplinary team comprises industry experts who possess a wealth of knowledge and experience across various fields. This diversity enables us to approach projects from a variety of perspectives, leading to more comprehensive and effective solutions. Additionally, our integrated approach ensures that all aspects of a project are seamlessly coordinated and aligned, leading to a smooth and successful project delivery.

- sign and furniture maintenance and replacement
- street sweeping
- line marking and traffic management
- delivering preventive programmes

Drainage maintenance work

Asset Management

Monitor, manage, maintain

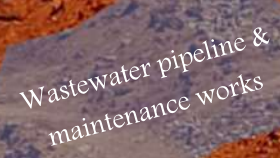

Creating a thriving community requires building infrastructure such as roads, parks, playgrounds, and recreational facilities, as well as airports, to ensure people feel safe and have ample opportunities for work and leisure. "We work closely with authorities to fulfill all their asset management requirements and provide them with the necessary information."

Our asset management systems provide us with an advantage by using portable mapping and GPS data to keep track of assets, report any defects, and log repairs or replacements. They can be tailored to meet the specific needs of our customers and seamlessly integrated into their information systems or our own databases. This allows for a real-time overview of assets under management and their current condition.

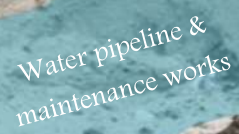

During the earthquakes, our asset management systems played a crucial role in keeping the community and stakeholders informed. We mapped road closures and asset conditions and provided up-to-date, vital information for the city. As leaders in road construction, authorities rely on us to maintain these vital community links. We take a holistic approach and offer a complete maintenance and construction service, including traffic management, road marking, street lighting, signage, pothole fixing, and major upgrades. We provide this seamless service to our customers, who include local roads, ports, airports, and defense facilities.

Water and wastewater

Build, upgrade, maintain

Wastewater pipeline &
maintenance works

Water pipeline &
maintenance works

Water and wastewater

Build, upgrade, maintain

Water infrastructure is essential for healthy and thriving communities, and Al-Haqbani Est plays a vital role in maintaining it. From planning and design management through to construction, commissioning and maintenance, Fulton Hogan has the credentials to deliver the infrastructure needed for secure, safe water supply, constructing dams, pump stations, pipelines and treatment plants. Our team leverages a vast pool of specialized resources that include civil, mechanical, process, and electrical engineers, in addition to commissioning specialists. We use these resources to deliver and test projects for our partners. Our experience enables us to work on both greenfield and brownfield developments, helping water authorities and local governments overcome the challenges presented by assets reaching the end of their life cycle.

Demand for water is constantly increasing as communities expand, and food producers rely on irrigation to support summer production, especially in the drier regions of KSA. We are experienced providers of comprehensive operation and maintenance services. As constructors of the infrastructure, we are frequently the go-to team for whole-of-life operation and maintenance services, ensuring asset owners that their systems are in good hands.

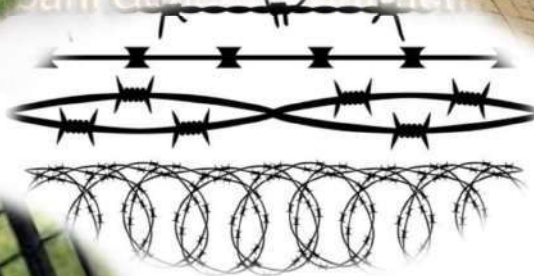

Fencing Works

Fencing Work

Build, maintain, operate

We specialize in all types of fencing work, providing top-quality services that involve creating strong and durable barriers around fields, yards, and other areas. Our fences are made of premium materials such as wood, metal, vinyl, or wire, and are designed to prevent unauthorized entry, confine animals or people, or mark a boundary.

You can trust our experienced team to deliver exceptional results that meet your exact needs and specifications. We have successfully completed projects for various organizations including data centers, banks, hospitals, farms, television stations, mining and oil drilling rigs, entertainment venues, shopping malls, and city utilities.

Rental Division

Our rental services are unparalleled and we take pride in supplying a diverse range of vehicles that cater to a variety of project needs. Whether you require heavy-duty trucks for construction sites or smaller vehicles for transportation, we have got you covered. Our fleet is regularly maintained and equipped with the latest technology to ensure safety and efficiency on the road. So, you can trust us to provide the perfect vehicle for your project.

Health Safety & Environment Procedures

TARGET OF AL-HAQBANI EST's

Al-Haqbani Est, understand the importance of maintaining a safe and healthy work environment, and we take all necessary measures to ensure the same. Our staff and workers are our most valuable assets for us, and we prioritize their well-being above all else.

Employees Responsibilities:

Al-Haqbani Est proudly upholds its HSE policies and expects nothing less than complete compliance from all staff and workers at every work site and the H.O/B.O. Our unwavering commitment to safety and compliance is non-negotiable.

It is the responsibility of every Al-Haqbani staff member to carry out their job activities in accordance with the approved HSE plan and procedures to ensure successful work site implementation.

Al-Haqbani Est's Staff are responsible for:

Every site/safety engineer must take responsibility for maintaining a safe work environment by employing necessary safety protocols and ensuring the use of appropriate personal protective equipment and safety devices. It is imperative that each task is executed with unwavering care and attention to the safety of oneself, colleagues, and workers.

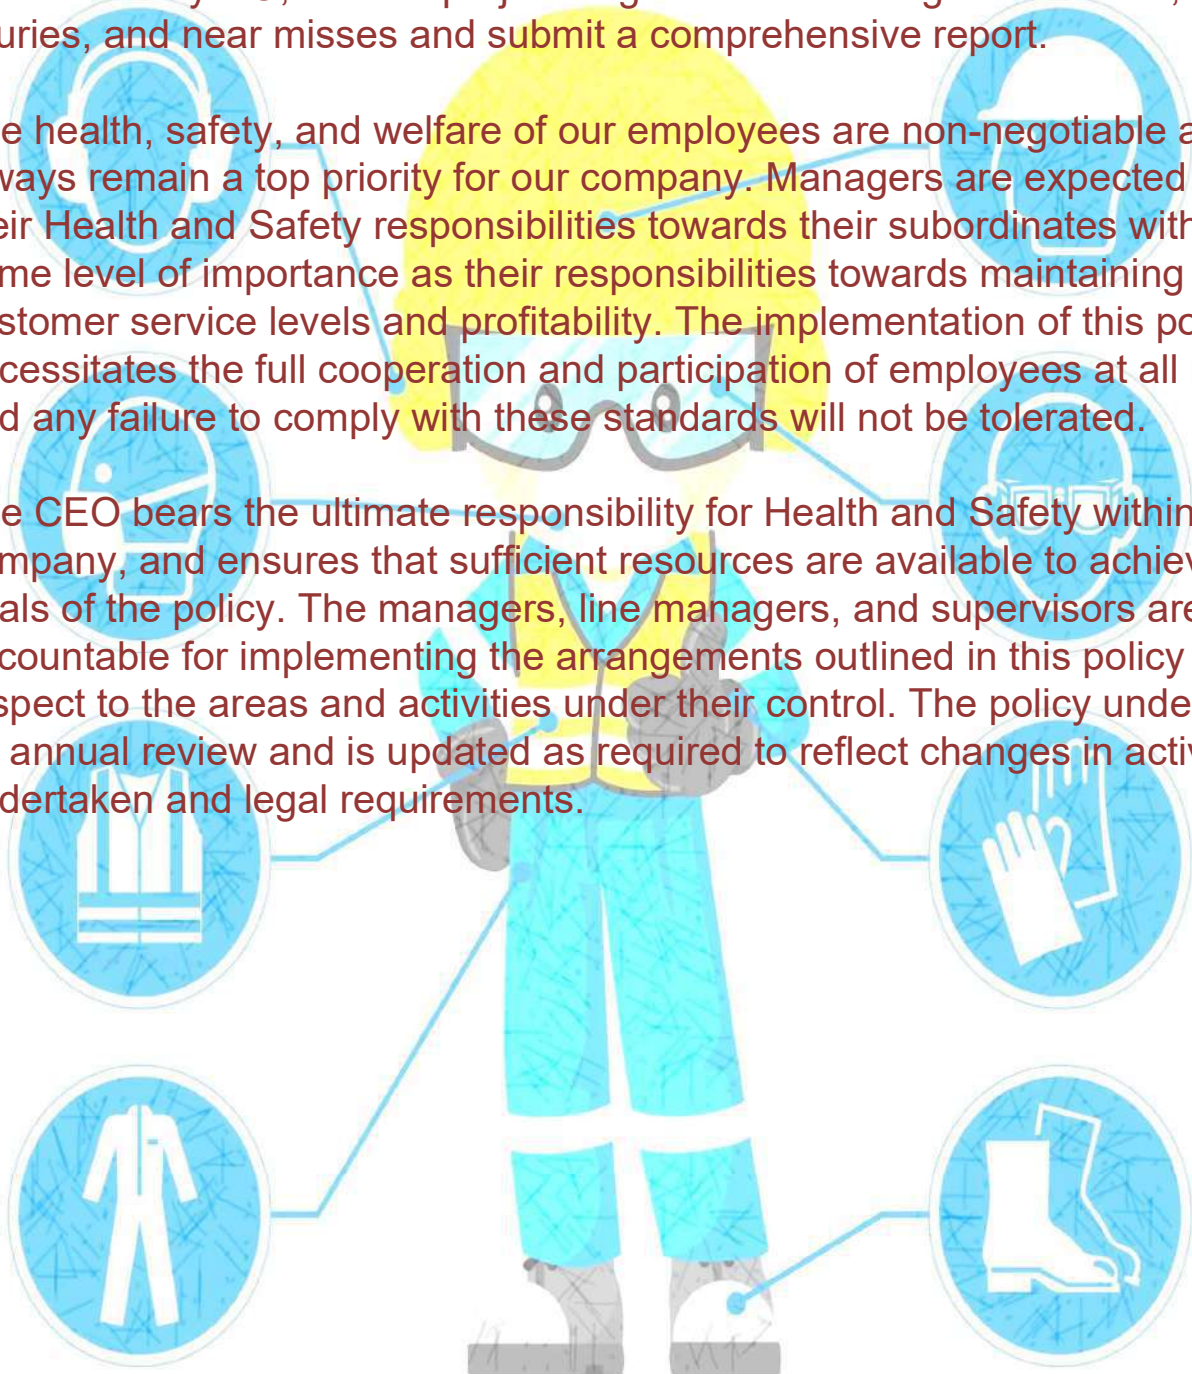

It is imperative that you report any job-related injuries or illnesses to your supervisor or project engineer immediately. This ensures that proper action can be taken promptly to address the issue and prevent any further harm or complications. Your safety and well-being are our top priority, and we are committed to providing you with a safe and healthy work environment.

Prior to commencing the assigned task, a safety drill will be conducted to the personnel to ensure their well-being. Additionally, a weekly toolbox meeting and training session will be organized by the Head Office at the job site to keep them updated with the latest procedures and guidelines.

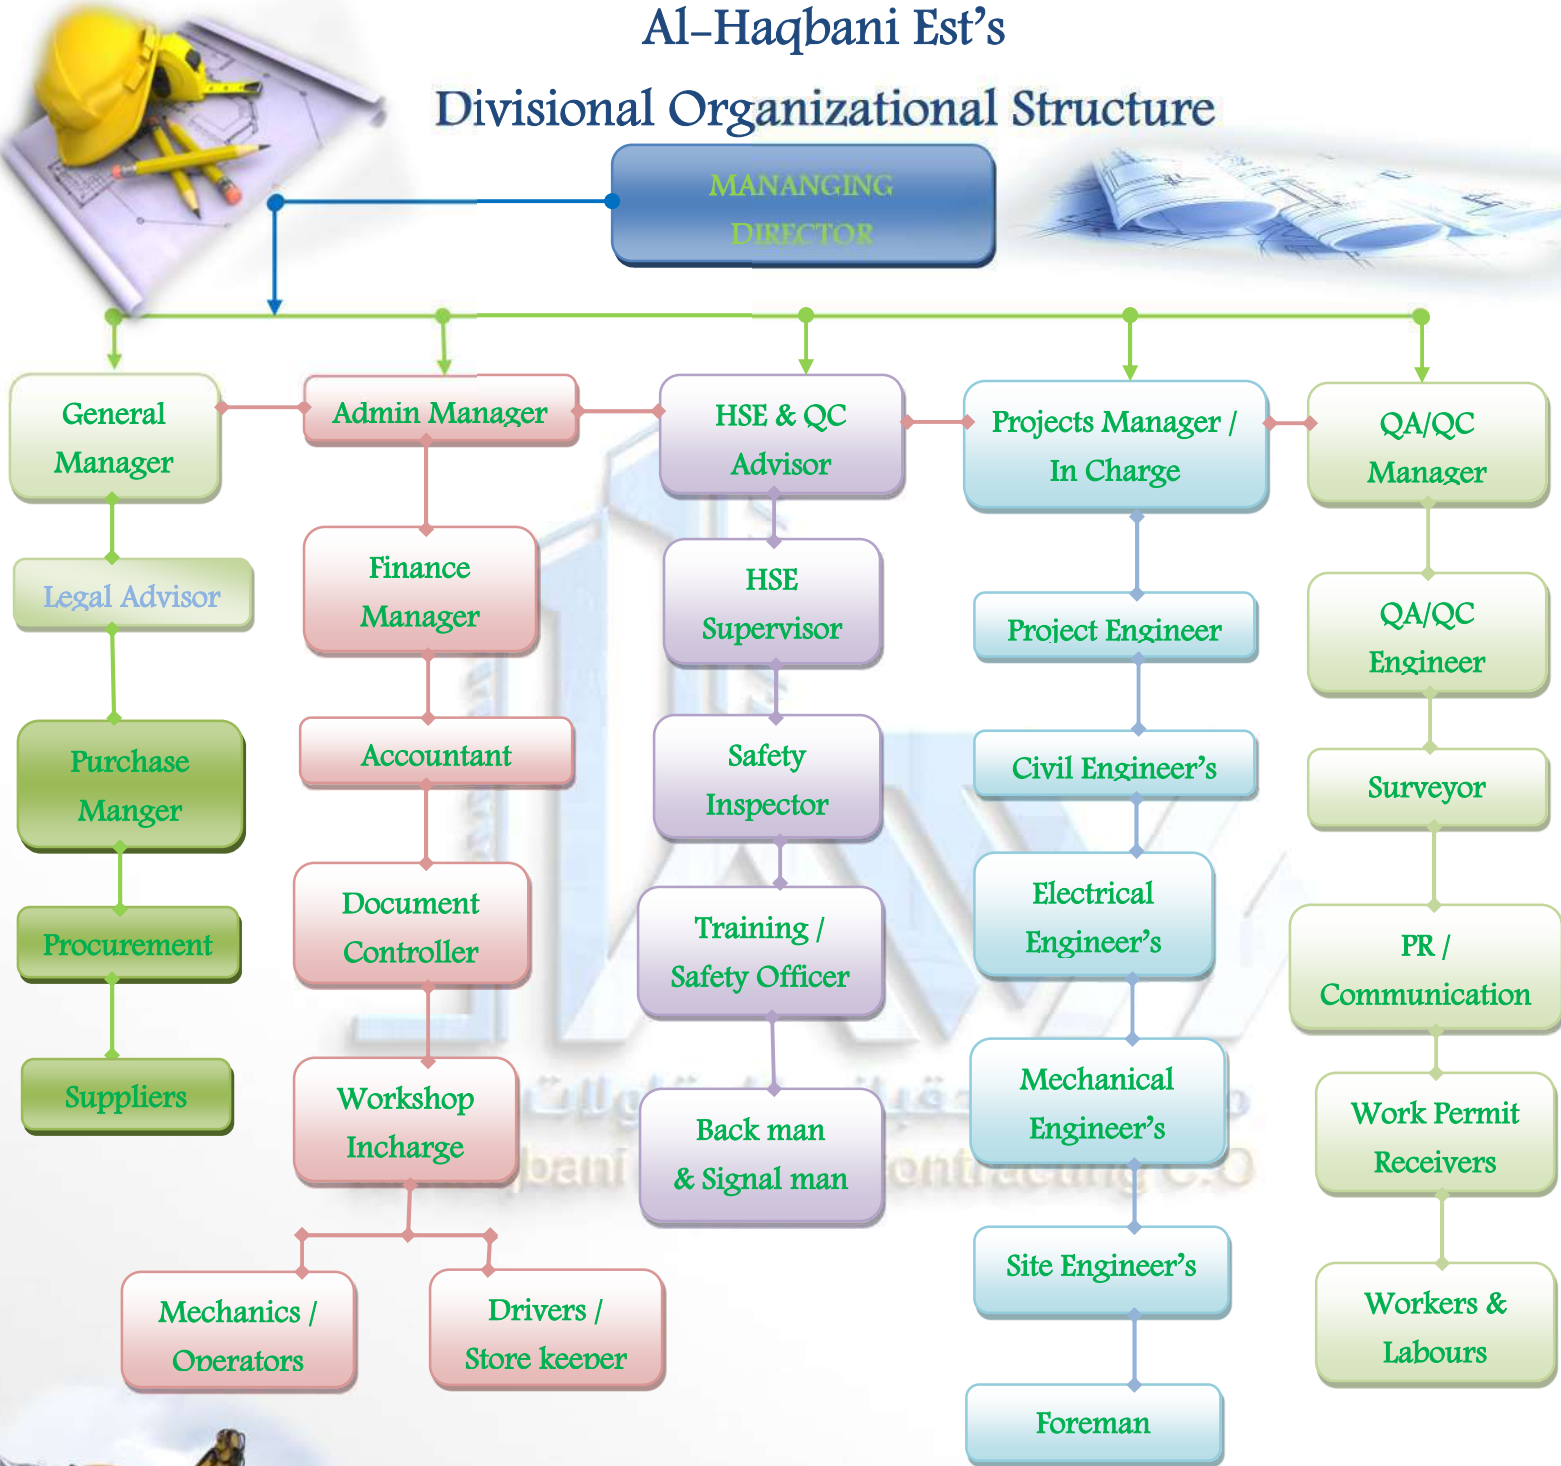

As directed by HO, the site project engineer will investigate incidents, injuries, and near misses and submit a comprehensive report.

The health, safety, and welfare of our employees are non-negotiable and shall always remain a top priority for our company. Managers are expected to fulfill their Health and Safety responsibilities towards their subordinates with the same level of importance as their responsibilities towards maintaining customer service levels and profitability. The implementation of this policy necessitates the full cooperation and participation of employees at all levels, and any failure to comply with these standards will not be tolerated.

The CEO bears the ultimate responsibility for Health and Safety within the company, and ensures that sufficient resources are available to achieve the goals of the policy. The managers, line managers, and supervisors are accountable for implementing the arrangements outlined in this policy with respect to the areas and activities under their control. The policy undergoes an annual review and is updated as required to reflect changes in activities undertaken and legal requirements.
